

Yi-Ting Chen

Current position:

- Attending Physician (Nephrology), Department of Integrated Diagnostic & Therapeutics, National Taiwan University Hospital.

Specialty:

- Internal Medicine
- Nephrology

Education:

- PhD, The Graduate Institute of Physiology, College of Medicine, National Taiwan University.
- MD, School of Medicine, Chung-Shan Medical University.

Career and certification:

- Attending Physician, Nephrology Division, Department of Internal Medicine, E-Da Hospital
- Researcher, Division of Nephrology, National Taiwan University Hospital.

Reminder from Dr. Chen:

- Taiwan has higher prevalence and incidence of chronic kidney disease and end-stage renal disease population in the world. A regular health check will help to identify early kidney dysfunction. And low salt and low protein diet are beneficial to the kidney. CKD patients need to closely follow up at Nephrologist OPD. Please keep contact with your doctor for further information.
