### •Career and certification:

- Resident and Chief Resident, Department of Environmental and Occupational Medicine, NTU Hospital, Taiwan.
- Environmental and Occupational Medicine Board, Ministry of Health and Welfare, Taiwan.
- Member, Taiwan epidemiology association.
- Best Resident Award, National Taiwan University College of Medicine.

Reminder from Dr. Wei:

- The service of environmental and occupational medicine focus on the integration of functional diagnosis and treatment. We elucidate the causal relationships between environmental/occupational factors and diseases, and commit the principles of prediction, prevention and protection. By understanding the root causes in a scientific, systematic and personalized manner, we can eliminate the risk factors in the environment. We can further utilize the cross-specialty and multidisciplinary management on the

basis of regulations and medical/scientific evidences to secure the wellness of our patients.

Please keep contact with your occupational physician for further information.
