

Rai-Hseng Hsu

• Current position:

- Attending Physician (Pediatrics), Department of Medical Genetics, National Taiwan University Hospital.

• Specialty:

- Pediatrics
- Medical genetics

- Inborn errors of metabolism

• **Education:**

- MD, Taipei Medical University

• **Career and certification:**

- Pediatric resident, Taipei Medical University Hospital
- Pediatric chief resident, Taipei Medical University Hospital
- Fellowship of medical genetics and metabolism, Department of Pediatrics, National Taiwan University Hospital
- Attending physician, Department of Pediatrics, Taipei Medical University Hospital
- Adjunct attending physician, Department of Pediatrics, National Taiwan University Hospital

• **Reminder from Dr. Hsu:**

Genetic diseases are nobody's fault. To find the answer via chromosome or genetic testing is not to blame anyone in the family, but to help the kids for better care and treatment. By the communication and cooperation of the whole medical team and the family, I expect every kid with rare disease could lead a steady life.
