

Fan-Cheng Wu

• Current position:

- Attending Staff, Department of Dentistry, National Taiwan University Hospital.

• Specialty:

- General Dentistry
- Periodontics
- Implant Dentistry

• Education:

- DDS, Department of Dentistry, School of

Dentistry, National Taiwan University

• **Career and certification:**

- Chief Resident, Department of Dentistry, National Taiwan University Hospital
- Resident, Department of Dentistry, National Taiwan University Hospital

• **Reminder from Dr. Wu:**

Poor oral health routine results in plaque and calculus accumulation, which may precede periodontal disease. Common symptoms of periodontal disease include gum bleeding, gingival swelling, increasing tooth mobility and even tooth loss. Please seek medical advice immediately if you have any symptom mentioned above. Ideal oral hygiene routine and patient compliance are essential for successful

management of periodontitis. Suggest early intervention to avoid tooth loss which may compromise quality of life. Wish everyone has a healthy smile!
