

Hsiao-Chiao Yeh

• Current position:

- Attending Physician, Department of Medical imaging, National Taiwan University Hospital

• Specialty:

- General medical imaging diagnosis
- Musculoskeletal imaging diagnosis
- Bone and soft tissue biopsy, tumor cryoablation
- Magnetic resonance-guided high-intensity

focused ultrasound

• **Education:**

- MD, School of Medicine, College of Medicine, National Taiwan University.

• **Career and certification:**

- Resident, Department of Medical imaging, National Taiwan University Hospital

• **Reminder from Dr. Yeh:**

Bone metastasis is a common complication of cancer, and the pain it causes can be unbearable, significantly impacting the patient's quality of life. In addition to medication management and radiation therapy, patients may also consider seeking

alternative treatments, such as magnetic resonance-guided high-intensity focused ultrasound.
