## Hospital

### • **Reminder from Dr. Wei:**

Physical medicine and rehabilitation (PM&R) plays a vital role in modern healthcare. From managing musculoskeletal disorders and neurological conditions to treating acute/chronic pain and dysphagia, comprehensive assessment and intervention by a specialist are essential. Our department provides advanced musculoskeletal ultrasound imaging and ultrasound-guided injections to ensure precise diagnosis and targeted treatment. If you have any related concerns, we invite you to consult with our medical team for further evaluation.
